Professional Summary

Frontend Developer with one year's experience building responsive, accessible React and Next.js apps using Redux Toolkit, Tailwind CSS and Material-UI. Skilled in RESTful APIs, Google Maps, OAuth, JavaScript/TypeScript, Node.js and Supabase; collaborative and committed to SOLID, DRY code.

Skills

- **Frontend:** React, Next.js, Redux Toolkit, Tailwind CSS, Material-UI, Bootstrap, Responsive Design.
- **Languages:** JavaScript (ES6+), TypeScript, Python, C++
- **Backend & APIs:** Node.js, Express.js, RESTful Services, JWT, GraphQL, Supabase, MongoDB, Prisma, Firebase
- **Deployment & Tools:** Netlify, Vercel, Render, Git/GitHub, CI/CD
- **Concepts:** Data Structures, OOP's, SOLID, DRY, DBMS, Operating Systems, Networking

Professional Experience

Blue Digital Media, Noida, UP

September 2024 – Present

React Developer (Full-time)

- Built responsive, accessible UI for Snapit.ae using React, Vite, Tailwind CSS, and Framer Motion.
- Developed the Abu Dhabi Sports Council Events Portal, an event booking and approval platform for the Government of Abu Dhabi, featuring event search with filters and pagination, Google Maps integration, and an English/Arabic language switcher, all implemented with React, Vite, Tailwind CSS, and Framer Motion.
- Enhanced performance and cross-browser compatibility by resolving layout and styling issues.
- Implemented custom React hooks and state management patterns with Redux Toolkit, adhering to SOLID and DRY principles.
- Integrated OAuth authentication (Google, Facebook) to streamline user login flows.
- Collaborated in Agile teams to refactor legacy code and enforce modern coding standards.

Blue Digital Media (Remote)

August 2024 – September 2024

Frontend Developer Intern

- Developed Elsopro.com CRM platform front end for 60,000+ vendors using React, Tailwind CSS, Redux Toolkit; ensured scalability and maintainability.
- Added interactive animations with Framer Motion to boost user engagement.
- Integrated Google Maps API for dynamic location-based search.
- Delivered a fully responsive interface within project timeline, enhancing usability.

Projects Freelancing

Blogg App

Live | GitHub

- End-to-end full-stack app on Render with JWT-based authentication, CRUD operations for posts, responsive UI with React and Material-UI.

Blabber Bot

Live | GitHub

- Built AI-driven chatbot using OpenAI API for text summarization, generation, and image creation; deployed frontend on Netlify, backend on Render.

Websites for Clients

- Designed and developed high-conversion landing pages using React and Tailwind CSS for clients: elso-pro.com, services.bluedigital.co.in, vertexgridsystems.com, amhtourism.com – Developed and maintained the official tourism portal for AMH Tourism, integrating interactive maps, dynamic itinerary planners, and responsive galleries to boost visitor engagement.

Education

- **B.Sc. Agriculture (Hons)**, College of Agriculture, Nagpur (Dr. PDKV), 2020 – 2024
