## Skills

**Languages:** JavaScript (ES6+), Python, C++

**Technologies and Frameworks:** React, Next.js, Redux, Redux-Toolkit, Tailwind CSS, Material-UI, Express.js, REST APIs, JWT, MongoDB, Firebase, Netlify, Render, Vercel, Prisma, TypeScript, Bootstrap, Node.js, Supabase, Git, GitHub

**Concepts:** Data structures, OOPs, SOLID and DRY principles.

**AI-Tools:** Windsurf, Cursor-AI, Bolt. New, Vercel-v0 etc

## Work-Experience

### Blue Digital Media (Noida, UP)

*Full-time React Developer:*

(Sept 2024-present)

- Designed and developed responsive user interfaces for **Snapit.ae** and the **Abu Dhabi Sports Council Events Portal** using **React**, **Vite**, and **Tailwind CSS**, with dynamic animations powered by **Framer Motion**.
- Fixed UI bugs and improved the overall user experience by resolving layout and styling inconsistencies across different devices and browsers.
- Wrote clean, reusable, and maintainable code by implementing **custom hooks**, adhering to **SOLID** and **DRY** principles to enhance scalability and performance.
- Integrated **Google Login** and **Facebook Auth** in **Snapit.ae** to provide seamless user authentication and onboarding.
- Utilized **Redux Toolkit** for global state management and implemented standard **core Redux** solutions for legacy software, following best practices in **React** development.
- Delivered end-to-end frontend solutions, managing everything from layout design to API integration and performance optimization.
- Collaborated with teams to identify and fix bugs in legacy codebases, ensuring adherence to modern coding standards and best practices.

### Blue Digital Media(remote)

*Internship:* [Certificate](#)

(Aug 2024-Sep 2024)

- Single-handedly built the front-end of **Elsopro.com**, a dynamic and responsive CRM platform catering to over **60,000+ vendors worldwide** with detailed profiles.
- Utilized **React**, **Tailwind CSS**, and **Redux Toolkit** to create a scalable, maintainable, and efficient codebase with seamless global state management.
- Integrated **Framer Motion** for smooth and engaging animations, enhancing the overall user experience.
- Implemented **Google Maps API** for advanced location-based search, improving vendor discovery and usability.
- Successfully delivered a fully responsive and intuitive interface as part of an internship, contributing to the platform's global reach and functionality.

\.

## **Projects and Freelancing**

### **Blogg App:** [Project Link](#) [GitHub](#)

- Developed and deployed a full-stack application on Render. Features include user registration, login, logout, and comprehensive CRUD operations for posts. Utilized React Material-UI for a polished and responsive frontend experience.

### **Blabber Bot:** [Project Link](#) [GitHub](#)

- Developed and deployed a full-stack application with the frontend on Netlify and the backend on Render. Users can register, login, logout, and utilize bot functionalities such as text summarization, paragraph generation, chatbot, and sci-fi image creation. This project highlights the integration of the OpenAI API to deliver advanced AI-driven features.

### **Landing Page for Clients:**

Designed and developed responsive landing pages for clients within the company and external businesses, enhancing user engagement and conversions.

## **Non-Technical Experience**

- Led a Rural Agriculture Work Experience (RAWE) program in Sindewahi, Chandrapur, for six months. Worked closely with a consultation team to understand agricultural practices and identify challenges. Developed and implemented effective solutions to address these issues, enhancing the overall productivity and sustainability of local farming operations.

## **Educational Background**

**Name of College:** College of Agriculture, Nagpur (A Government College under Dr.PDKV )

**Course Name :** Bachelors of Science Agriculture(Hons)      2020-2024 (4 year Program)

### **Interests**

Equity and Crypto

Swimming

Chess
