Professional Summary

Self-taught MERN Stack Developer with a Bachelor's degree in Agriculture and a strong passion for creating web applications. Enthusiastic about technology and deeply interested in how startups operate. Skilled in leveraging my abilities, including using ChatGPT, to build effective and user-friendly web solutions. Dedicated to continuous learning and innovation in the tech field.

Skills

Frontend Technologies	Backend Technologies	Others
HTML5 CSS	Nodejs	Git and [GitHub](#)
Tailwind CSS and Bootstrap	Express Framework	Web Application Deployment
JavaScript(React Lib.)	MongoDB	ChatGPT

Projects

Blogg App:

[Project Link](#)

- Developed and deployed a full-stack application on Render. Features include user registration, login, logout, and comprehensive CRUD operations for posts. Utilized React Material-UI for a polished and responsive frontend experience.

BlabberBot:

[Project Link](#)

- Developed and deployed a full-stack application with the frontend on Netlify and the backend on Render. Users can register, login, logout, and utilize bot functionalities such as text summarization, paragraph generation, chatbot, and sci-fi image creation. This project highlights the integration of the OpenAI API to deliver advanced AI-driven features.

Non-Technical Experiences

- Led a Rural Agriculture Work Experience (RAWE) program in Sindewahi, Chandrapur, for six months. Worked closely with a consultation team to understand agricultural practices and identify challenges. Developed and implemented effective solutions to address these issues, enhancing the overall productivity and sustainability of local farming operations.
